# Outsourced Maintenance Management

Reduce downtime and maintenance costs with a fully transparent electronic repair management system, including over 85,000 national and independent U.S. shops

Vehicle Enters Shop → Repair Order Submitted → Manual Approval / Automated Approval → Vehicle Repaired → Back on the Road → Real-time Reporting

Full Control

Review and approve transactions on your terms. Set auto-approval or rejection rules based on shop, cost or service code or review each request manually. Shops can only get paid for approved and completed work— no surprise bills!

Increase Accountability

Drivers have full visibility into upcoming preventative maintenance and issues for their vehicles and can find in-network shops from the Fleetio Go mobile app, ensuring vehicles are serviced promptly.

Multiple Payment Options

Reduce paperwork and time spent reconciling invoices. Pay at the time of service or get one monthly statement for all your fleet maintenance vendors.

No Fees or Additional Costs

Included in your Fleetio subscription at no additional cost. Since Fleetio pays your shops for completed work within 48 hours, you'll never pay a late fee or interest on repairs.

See How Fleetio Compares

Manage external vendors, repairs and approvals without the managed service price tag.

Fleet Management Company

✕ Manages approvals based on broad guidelines

✕ Difficult to access repair data on demand

✕ Limited visibility into maintenance trends

✕ National provider discounts but at the cost of hiring FMC

Fleetio

✓ Electronically approve or reject ROs at line-item level

✓ Access detailed maintenance history 24/7

✓ Easily spot cost and repair trends

✓ National provider discounts, regardless of fleet size

Paper or Spreadsheets

✕ Unnecessary time spent on phone with shops approving ROs

✕ No centralized maintenance records

✕ Difficult to spot trends from paper invoices

✕ National provider discounts limited for smaller fleets

- Faster service
- Report on trends and spend
- Customize maintenance policies
- No service data entry
- Manage approvals electronically
- Large Network
- Set approval permissions
- Secure transactions

The Maintenance Shop Integration is free for all Fleetio Customers. See what they're saying:

"

"The Maintenance Shop Integration is awesome. With offices throughout the entire state, it's been difficult to manage maintenance from afar. Management now has visibility into the various repairs that are happening within our ever aging fleet."
