

# Drive your fleet into the future.

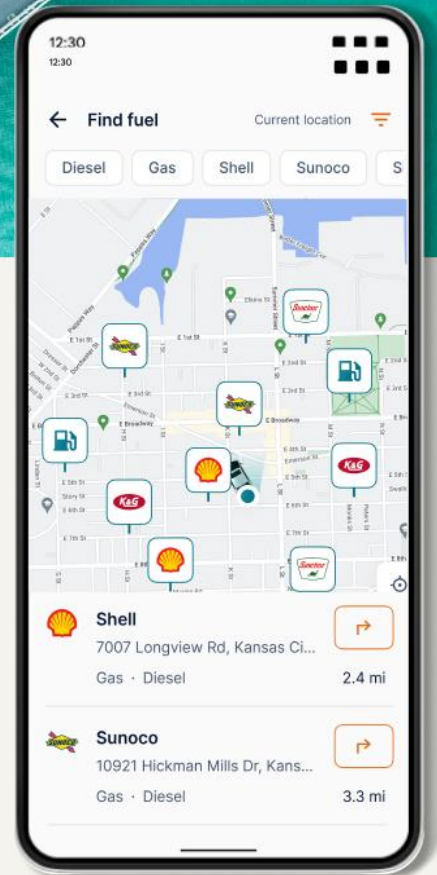

Ditch the credit card and use your vehicle to pay.

## Eliminate cards

# Power your payments with real-time vehicle data.

Using your unique vehicle data we connect you directly to merchants, enabling you to turn on the pump, make payments, and eliminate the hassle of physical credit cards.

With a single app and user-friendly interface, drivers can easily locate merchants and get the services they need. No need to enter VIN numbers or keep receipts. Less friction means happier and safer drivers.

## Available nationwide

# Unlock more than the fuel pump.

With Car IQ, now your vehicle can pay for all of these things using our app and drivers can find fuel anywhere on their route. EV Charging, Parking, Vehicle Service & Repair will all be available soon.

### Fuel

Unlock the pump in seconds and get back on the road faster.

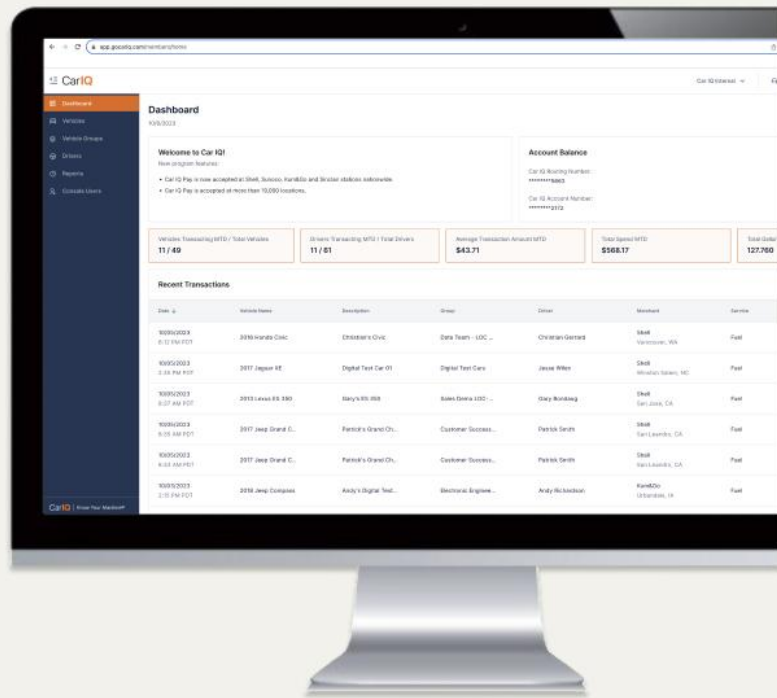

### Tolling

Transactions are automatically integrated into your ledger.

## Efficiency

# Manage all of your payments in one easy place.

Our platform streamlines reporting and eradicates the need for time-consuming back-office reconciliation, enhancing operational efficiency. Scale with less people and manage a single ledger that offers automatic reporting and robust security. It's the ultimate way to control your fleet, improve your fleet, and profit from your fleet.

### One ledger

Our easy to use portal allows your finance department to manage your entire fleet expenditures in one place.

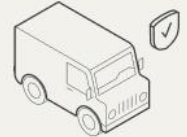

### Get vehicle data

We tap into your vehicle data to create a unique ID that is authenticated prior to the transaction. Then, we connect directly to the merchant to initiate transactions.

### Reconcile faster

Easily add cars, manage payment receipts, show reports and reconcile a whole lot faster than ever before.

### Prevent fraud

Only Car IQ enables you to set limits and controls by vehicle and delivers the most robust real-time data and visibility.

## Easy to deploy

# Integration made easy.

Our platform integrates with your existing fleet platform and telematics. Implement fast and easy and increase your ROI extending the value of your existing technology.

## Available nationwide

# Find fuel wherever your fleet goes.

No matter where you are along your route you can find fuel just about anywhere. Unlock services and turn a normal stop into a quick pit stop so you can get back on the road faster.
